

ENVIRONMENTAL POLICY STATEMENT

Grundfos Europump (the Company) will conduct all of our activities in a responsible manner that minimises potential environmental impacts and fully considers the following: - Legal requirements and governmental policies, customer expectations and concerns, short and long-term benefits, costs and liabilities and viable material and process alternatives.

This policy shall apply to all Company personnel, sub-contractors, part time workers and assistants who shall be paid by or under the control of the Company during regularly scheduled work.

All company managers and supervisors shall be familiar with the policy and shall assure the implementation of it. All Company employees shall be made aware of this policy by their direct supervisors and shall be individually responsible for following the procedures set forth under this policy that may relate to the job being performed by that worker.

Our objectives are to:

- Strive to continuously improve our environmental performance and integrate recognised applicable best practice into our business operations
- Reduce our consumption of resources and improve efficiency in the use of these resources
- Manage waste generated from our business operations according to the principles of reduction, reuse and recycle whenever possible
- Manage our business operations to prevent pollution
- Ensure environmental criteria are taken into account in the procurement of goods and services
- Comply with all relevant environmental legislation as well as other environmental requirements to which the firm subscribes.

This statement represents our general position on environmental issues and the policies and practices we will apply in conducting our business.
